**About Raesch Quarz Germany GmbH:** Since 1992, Raesch Quarz (Germany) GmbH has been the expert for customized quartz glass manufacturing. From holding rods and resize tubes to lamp tubes and fused quartz, the quartz glass melting company offers a broad spectrum of innovative products. Development, production and sales are based at the Thuringian site Langewiesen.

**About Hönle Group:** In addition to the parent company, UV systems specialist Dr. Hönle AG (UV / LED-UV units and systems, professional lighting technology), the Hönle Group also comprises of the sheet-offset specialist Eltosch Grafix (UV/UV-LED/IR/hotair dryers and peripheral units, e.g. ink fixation and powder systems) and the UV specialist for web printing PrintConcept.

Experts in the field of glass and lamp manufacturing are Raesch (customized quartz glass components), UV-Technik Speziallampen (lamp manufacturing, etc. for sterilization) and Aladin (UV lamp production).

A further subsidiary is the adhesives specialist Panacol.

The German based Hönle Group has local subsidiaries in China, France and the USA as well as a sales offices in Italy and a sales & service office in Spain. The Hönle Group also has an extensive worldwide network of experienced sales and service partners.
